Dear Colleagues

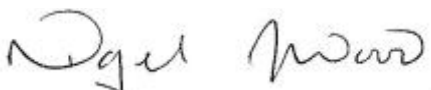

SUBJECT – INTERNATIONAL MATCH LEVY

Following the RLIF Board Meeting in Singapore on 28-29 July 2018 the Board has resolved to amend the mechanism used to determine monies payable to RLIF derived from match revenue (“match levy”). The resolution followed consideration of a series of proposed financial models tabled by the executive. The current formula equates to the levy being 10% on the net profit of international matches after the deduction of staging costs (excluding team costs). Effective immediately, the following rules will apply to all international matches properly sanctioned by the RLIF:

- i) 10% of the ticket revenue generated (net of any output tax) for every international;
- ii) Such returns to be made within 14 days of the playing of the international;
- iii) The levy is applicable to all matches sanctioned irrespective of size and scale. All transnational matches are required to comply with the RLIF Match Sanctioning Protocol or applicable tournament regulations;
- iv) Where international fixtures are staged and the levy due, based on the calculation set out above, does not exceed £300/\$500 AUD, the Board may consider that in such circumstances the levy may be waived.
